Learning Points

Talking About Food - Made From vs. Made Of

You use the word *ingredient* to talk about what foods are used to make a dish.

For example:

The ingredients of cream are: milk, sugar and eggs.

You use *made* and the preposition *of* to talk about ingredients that don't change their original form.

The shu-cream is made of pastry and cream. (You can still see the pastry and the cream).

You use *made* and the preposition *from* to talk about ingredients that change their form.

Examples:

- *Wine is made from grapes.*
- *Mochi is made from rice.*
- *What are they made of?*

Asking For and Giving Advice

You can use the **Wh-question** ... *What should I do?* to ask for advice.

You can use the **modals** *should* and *could* to give advice.

Examples:

- *You should try these shu-creams.*
- *You could try the sample.*
- *What should I get?*
- *Who should I ask?*
- *Where do you think I should go?*
